About This Game

Oscar Mike VR is a fast paced 5-on-5 FPS game for the Vive. Players can play as the International Special Forces or the Fifth Column. OM:VR features realistic maps and weapons that make the players feel immersed in the action.

Oscar Mike is an objective-based multiplayer first-person shooter. Players play as either the International Special Forces or the Fifth Column. The Fifth Column wants to plant and detonate a bomb at one of two bombsites, while the International Special Forces want to defuse bomb or eliminate all enemy threats.

Play online with 9 other people or by yourself against bots.

Each round will last five minutes and the match will be played best of 11 rounds.

Players can purchase weapons at the beginning of every round with money they earned from previous rounds.

The Fifth Column must plant a C4 explosive at one of two designated bomb sites labeled A or B. Players must defend their sites until the countdown finishes and the bomb detonates. The International Special Forces must prevent the bomb from exploding, either ensuring that Fifth Column team does not plant it or defusing the bomb once it is planted. If ISF team does defuse it, the ISF team will still win regardless of how many players are still alive on the Fifth Column team.

Players can earn Steam Achievements and Steam Trading Cards by playing Oscar Mike against online opponents or offline against bots.

Beautiful style\graphic, good music, love the riddlesolving. Playing singleplayer on the parts which require timing of the two 'characters' is frustrating, play it in coop if you can.

And also there should be some better hint about how you hang on to the minecart with the shadow, died so many times trying to manual keep my character on.. Pulsing arrows. 8.5 / 10

ปวดหัวเล็กน้อย. ehh, not really playing well and not really what i expected. i bet others would like it though.. It can get crazy at times but it's so fun <3. I got this because It was a newly added game. There isn't much to do in the game.

Only thing wrong with this DLC is the RPM indicator was taken from a Piper Cherokee.... The green arc should only go between 2000 and 2500 rpm. Other than that, great DLC! 9.9V10. Didn't expect to like this, but booy this is an amazing game to play. The story, the stats, items, all it's getting along awesome. I love this game so far and I recomend it.. This game is blowing my mind. It's got all the necessary ingredients to make a fantastic experience and for such a low price!

I am very glad to have taken a chance on this one - it may very well end up being one of the best games in my library.. If you like Skyrim, Medieval RPG Game, Swordplay action game, The Witcher, etc, and have the fantasy of being a hero in those games, then this game is for you. It's not the most polished VR game (hey, it's free) but it will put you in the shoe of a medieval RPG hero with complete set of abilities and skills (sword, gun, archer, magic, etc).

I have been dreaming to be a hero in a medieval world, fighting monsters and throwing spells since I was a kid, and this game could give me that.

Love this game and can't wait to see more games like this.

Thank you Kubold !!! This game is so underrated. I had really fond memories of this game, but most of that was from the demo where the majority of the enemies are melee only and you don't have to deal with the AI's laser lock-on system.

It plays almost like a single player version of Counter-Strike, except it's actually still fun and nowhere near as cheap (most of the time) as the deleted scenes of Condition Zero. Corner jiggle peeking is rewarded and prolonged spraying of the automatic weapons is punished with poor accuracy.

It's good but not as great as I remembered and I would actually recommend playing on the easiest difficulty to avoid having to exploit the AI when dealing with the more powerful bullet sponge enemies in the 2nd half of the game, as I had to in my recent play through.

There are fan patches, source ports, and texture packs available to accommodate the higher resolutions of modern monitors and future proof the game for current and future operating systems.
